℞ AYER'S
Catharlic Pill

CLEANSE THE BLOOD AND CURE THE
Invalids, Fathers, Mothers, Physicians,
Philanthropists, read their Effects,
and judge of their Virtues.
FOR THE CURE OF

Headache, Sick Headache, Foul Stomach.

Dr. J. C. AYER. [illegible] worst headache anybody can have [illegible] Pills. It seems to arise from a foul stomach [illegible] at once. If they will cure others [illegible] worth knowing.
ED. W. PREBLE, [illegible]

Bilious Disorders and Liver Complaints.

DEPARTMENT OF THE INTERIOR, WASHINGTON [illegible]
SIR: I have used your Pills in my general [illegible] since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action [illegible] the liver is quick and decided [illegible] remedy for derangements of that organ. [illegible] seldom found a case of bilious disease so obstinate that it did not readily yield to them.
Fraternally yours,
ALONZO BALL, M. D., Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. Co., MICH., Nov. [illegible]
DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here. GEO. J. GRIFFIN, Postmaster.

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.
DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.
WARSAW, WYOMING Co., N. Y., Oct. [illegible]
DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.
JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, [illegible]
DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.
ASA MORGRIDGE.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes, of the Methodist Episcopal Church.
PULASKI HOUSE, SAVANNAH, [illegible]
HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.
SENATE CHAMBER, BATON ROUGE, LA., [illegible]
DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years.
VINCENT [illegible]

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even Deafness, and Partial Blindness, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skillful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

FRIDAY MORNING, AUG. 21, 1863.

Extension of the Milwaukie Road.

As the convenience and importance of this admirable avenue begin to be appreciated, there is an anxious and fast-increasing desire on the part of those residing beyond its Southern terminus that its benefits should be extended. We learn that citizens residing this side of the river, on the line to the Tualitin bridge, have caused a survey to be made, the report of which shows an excellent and easy route. Leaving the Milwaukie road, it rises over Elk Bluff, by a side hill grade, not exceeding five feet in a hundred, and thence passes by a bridge over Tryon's creek, and along the rear of Oswego, by a level line on the north side of Sucker Lake, in a straight course to the present bridge on the Tualitin. The distance is only eight miles and a half, and except the first mile and a fraction, it is almost level, requiring only grubbing and cleaning the brush to make a good turnpike, as the soil is of such a nature as to make the work of grading comparatively cheap and trifling.

The country through which the road passes is described as being pleasant and romantic as any in the State—just such a region as those who desire an agreeable and healthy drive of ten miles from the city would gladly appreciate—and we have no doubt that if the road is once opened to public travel, our citizens will wonder that they never knew before that within an hour's ride there was such a delightful place and charming scenery as they will find on the shores of the lake.

We trust that those who are interested in the project, either as owners of the stock of the Milwaukie road—which must be greatly benefited by thus securing the general travel from the upper Willamette—or as residents of the land adjacent to it, will take prompt and active measures for its early completion. The present road to the Tualitin is miserably bad, and there is little prospect that it will be made any better, so that the only hope for obtaining easy and safe avenues of travel and land communication depends upon private enterprise, operating through the combined means of those interested as capitalists or land owners, and the sooner they do the work, the better for them and for the public.

The State Fair.

A correspondent, who is one of the most intelligent farmers in Clackamas county, expresses much surprise and regret that more active measures have not been taken to awaken general interest in this part of the State in the fair, now close at hand. He fears, from the prevailing indifference, that it will not be what it ought to be—an exhibition worthy of a State so abounding in resources and so prolific in the rich and magnificent fruits which reward and crown the labors of our industrious husbandmen. We trust that he is mistaken, and that his fears are groundless; though we are compelled to admit that we have been sorry to perceive a degree of apathy upon the subject which ought not to exist. This has doubtless resulted, in part, from the disappointment heretofore experienced, growing out of the unfavorable weather, alleged unfairness in regard to the distribution of premiums, and many other causes, natural and almost unavoidable in a new State. But all these are merely temporary objections, which are not likely to exist again, and certainly ought not to be allowed in the slightest degree to check or chill the enthusiasm of the farmer, the fruit grower or the artisan. All ought to feel a just and wholesome pride in giving to the Fair the utmost success; and this can only be secured by a general attendance, and by furnishing for exhibition, even at what may seem to be a considerable expense, all such articles of breeding, growth and manufacture as will attract public attention, and be of practical utility and benefit. We hope these hasty suggestions are worthy of consideration, and that there will be a zealous determination on the part of all who are interested to make the State Fair this year a source of national pleasure and general advantage.

Leaving the Mines.—The Walla Walla *Statesman* says that the miners in great numbers are returning to the settlements on their way to the valleys and towns of Oregon and Washington, to spend the winter. Want of water has driven many from the gulches of Oro Fino, Florence and Elk City, while those who have creek and river claims remain until the frost stops their moisture.

Drought in Minnesota.—The St. Paul's *Press* says: "It is now nearly six weeks since we have had a fall of rain. Within our memory no such drought has occurred in this State. The effect on the young grain has, of course, been disastrous. Spring wheat is everywhere throughout the State shriveled and yellowed by the burning sun, and is prematurely heading out a few inches above the dessicated soil. Grass on the prairies is parched to an autumnal hue. Indian corn alone, of all our crops, holds up its head amidst the drouth, and has a vigorous and thrifty look. Winter wheat also looks well. The rivers are lower than was ever known before. Even the wells are getting dry."

Gen. Grant's Official Report of His Operations.—A report of the operations of the army of the Tennessee, from the day General Grant assumed permanent command of the expedition against Vicksburg, until the surrender of that place, is published in the *Official Gazette*. He says it is a striking feature, so far as his observation goes, of the present volunteer system of the United States, that there is nothing that men are called upon to do, systematic or professional, that accomplished adepts cannot be found for the duty required. Speaking of the assistance rendered by the navy, he says: "I cannot close my letter without expressing my thankfulness for my good fortune in being placed in co-operation with officers of the navy who accorded to every move that seemed to the interest of our arms their hearty and energetic support." Admiral Porter, he adds, and every efficient officer under him, have shown the greatest readiness in their co-operation, no matter what was to be done or what risk was to be taken. Without their prompt and cordial support my movements would have been much embarrassed, if not wholly defeated.

After acknowledging the co-operation of the navy, Gen. Grant concludes his report as follows:

The result of this campaign has been the defeat of the enemy in five battles outside of Vicksburg, the occupation of Jackson, Capital of the State, the capture of Vicksburg with its garrison and munitions of war; a loss to the enemy of 37,000 prisoners, among whom were fifteen general officers, and at least 10,000 killed and wounded, among the killed being Generals Tracy, Tilghman and Green; hundreds, perhaps thousands, of stragglers, who can never be collected or reorganized. Arms and munitions of war for an army of 30,000 men have fallen into our hands, besides a large amount of other public property, including locomotives and cars, steamboats, cotton, etc., and much was destroyed to prevent its capture. Our loss in the battles may be summed up as follows: Port Gibson—killed, 130; wounded, 718; missing, 5. Fourteen-mile Creek skirmish—killed, 4; wounded, 4. Raymond—killed, 69; wounded, 341; missing, 32. Jackson—killed, 40; wounded, 240; missing, 6. Champion Hills—killed, 426; wounded, 1,842; missing, 189. Big Black Railroad Bridge—killed, 29; wounded, 232. Vicksburg—killed, 549; wounded, 3,608; missing, 303. Total—killed, 1,242; wounded, 7,295; missing, 537. Of the wounded many are but slightly wounded, and continued on duty; many more required but a few days or weeks for recovery. Not more than half of the wounded are permanently disabled.

The Collector at San Francisco.—The Sacramento *Union* says of Col. James, just appointed as the successor of Collector Low, that "so far as we know, his name has not been mentioned for the position publicly on this side. He is a man not generally known in this State, though he was somewhat prominent in the Senatorial contest last winter as the friend of T. W. Park. He is a lawyer by profession, and was for several years the legal advisor and general manager for Park on the Mariposa estate. He is, we believe, a native of one of the New England States, but resided for some years in a Western State, from which he was sent to Washington as agent to settle some large claim against the General Government. In the capacity of agent, he spent several winters at Washington, and became acquainted with most of the leading men of the nation. This acquaintance has doubtless aided him in obtaining his present appointment. He is a man of fine personal appearance, affable in manners, and a fluent talker. Having been employed by Park would indicate talent sufficient for the position, yet we doubt whether he had been thought of for Collector by a half dozen men in this State. We presume Trenor W. Park has had something to do with getting the appointment for his devoted friend James. It is hardly probable that he was named for Collector by Senator Conness."

Battle-Field Scenes.—The correspondent of the New York *Times* opens and concludes his letter from Gettysburg, of July 4th, to that paper, as follows. The entire letter is one of the most affecting and thrilling battle scenes we have ever read:

Who can write the history of a battle whose eyes are immovably fastened upon a central figure of transcendingly absorbing interest—the dead body of an eldest born, crushed by a shell in a position where a battery should never have been sent, and abandoned to death in a house where surgeons dared not stay.

* * * * *

I leave details to my excellent friend and associate, Mr. Henry. My pen is heavy. Oh, you dead, who at Gettysburg have baptized with your blood the second birth of freedom in America, how are you to be envied! I rise from a grave whose wet clay I have passionately kissed, and I look up and see Christ spanning this battle-field with his feet and reaching fraternally and lovingly up to Heaven. His right hand opens the gate of Paradise—with his left he beckons to those mutilated, bloody, swollen forms to ascend.

Southern Unity only Superficial.—Vallandigham falsely asserts that the Southern people were never so unanimous and determined in their bad cause of secession as now. Contrast that assertion with the admissions in the following extract from the Mobile *Advertiser*:

The Confederacy has seen darker days, and emerged from them. It is not dark enough to justify the prudence of those who are ready to submit and anxious for peace and security of their property on a basis of submission, to show their hands yet. There have been signs of this white feather fluttering during the past few gloomy days. Let us warn them that it is base to feel and dangerous to be premature in utterance of such sentiments. The land has made too many sacrifices for its freedom to falter at the last hour. The timid and faithless must not be allowed to falter in the footsteps of revolution; it must roll on in triumph, although its wheels have to roll over them and their fortunes.

The Power of Muslin.—Jennie June says: "Men never so entirely worship women, as when they are surrounded by the wondrous folds of a delicate semi-transparent muslin dress. They may respect them in calico, they may admire them in velvet, but they love them in muslin." Whereupon the Boston *Post*, with delightful simplicity inquires—"Is it the semi-transparency, Jennie?"

The *Herald's* special dispatch says: The negroes used by the rebels as soldiers are to be allowed five dollars for each United States musket, twenty-five dollars for each United States horse, fifty dollars for each United States negro killed or captured by them, and fifty dollars for each scalp of a United States white officer commanding negro soldiers.

SPECIAL DISPATCHES TO THE DAILY OREGONIAN.

LATER FROM THE EAST.

Dates to August 15th.

Chicago, August 14.—The *Herald's* Washington dispatch of yesterday says it is stated by those who profess to know much of the rebel programme, that the organization of negroes in the rebel service, had been determined upon. Those employed to be compensated by donations of land and emancipation at the end of the war.

Lists of prominent rebel prisoners have been forwarded to Gen. Meredith and it is expected that within a few weeks the exchange of enlisted men who have been paroled and released will be effected, and thus save our country 18,000 soldiers to serve in the army. The agent of the Treasury Department who went to England some months ago has returned to Washington. His mission has been highly successful. He succeeded in convicting two counterfeiters of United States notes at the York assizes. It is believed no attempt has been made to forge these notes except in cases referred to.

Washington, August 14.—Lieut. English in a communication to the Navy Department, dated July 28th, says, under instructions for acting Rear Amiral Bayley, he had assumed command of the blockading squadron off the eastern coast of Florida. He dispatched an expedition up Mosquito Inlet which captured a sloop ladened with cotton, and a schooner waiting for cargo. A large quantity of cotton on shore was burned, and several vessels were destroyed—one ladened with salt. The force landed and burned all houses that had been occupied by rebel troops. On landing our force was fired on by a few stragglers; no one was hurt. Boats scoured an extensive lagoon thirty miles, as far as blockade runners could go.

New York, August 14.—Portland papers contain news of a battle between a Federal gunboat and a pirate off Chouddie Island, on the 23d of July. Some fifty or sixty shots were fired. The engagement lasted three fourths of an hour, when the gunboat ran in for the landing, followed by the pirate as far as she dared to come. No names were given, and a mystery hangs over the affair. Washington dispatches of this evening state that the Navy Department has no official knowledge as yet of it.

Washington, Aug. 14.—Information from the Army of the Potomac, just received, says, this morning a body of rebels came upon our signal party on Water Mountain, 3 miles from Warrenton, and captured three signal officers, one of whom subsequently escaped.

Major General Warren took temporary command of the 2d Army Corps to-day.

Toronto, August 14.—The Canadian Parliament assembled yesterday. The Governor-General in his speech directed especial attention to the English Militia Law which required extensive amendments in order to place it in a condition of efficiency.

New York, August 15.—The *Tribune's* Washington dispatch says the number of colored troops in the army is between 22,000 and 23,000. Thirty additional negro regiments are partly organized and rapidly approaching completion. The estimate of 100,000 negroes being in the army by Fall it is thought will be sustained.

Prominent Western men, among them Gov. Tod, of Ohio, called on the President yesterday, and urged the immediate organization of a mounted force to operate in Tennessee.

Huntsville, Alabama, is now permanently occupied.

New York, August 15.—It is stated that the rebels are securing immense supplies by way of Wilmington N. C., in spite of the blockade. Machinery of all kinds, clothing, medicines, railroad iron, guns of the heaviest calibre, etc. are daily being brought in, as if no blockade existed. Officers and crews are constantly leaving Wilmington. They go to England to man rebel privateers, which are now being built for the rebel navy.

Washington, August 15.—A court of enquiry demanded by Major General Milroy has been granted. Details of the court have not yet been published. It is probable, however, that Major General Hitchcock will be President.

Secretary Chase has made the following decision in regard to the redemption of the public debt: all coupon and registered bonds forming a part of the permanent loan of the United States, will be redeemed in gold; the 5-20 sixes being redeemable any time within 20 years, after the lapse of five years belong to the permanent loan, and so also do the 20 year sixes of July 11th, 1861, into which the three years 7-20's are convertible. All obligations and notes forming part of the temporary loan, will be paid at maturity with U. S. notes, unless before such maturity payment in specie shall have been resumed. The 7-30 bonds or notes form part of the temporary loan, with the privilege of conversion into 20 year sixes in sums of not less than $500; they therefore, will be paid, if the holders prefer payment to conversion, in U. S. notes.

No Supplies from Salt Lake.—The reported immense stock of supplies on the road from Salt Lake to Boise has never arrived. The flour trains which reported to be on their way early in the season, were started by speculators at Boise, and of course, when they had sold out their own stocks, there was no further necessity for the importation of flour from Salt Lake to Boise, and the trains were stopped. We learn from parties who have had direct communication from Salt Lake, that the amount there is limited—the market having been drained by traders who have been supplying the mines on the eastern slope of the mountains. The mines at Beaver Head and Big Hole are nearer to Salt Lake than those of Boise, with a much better road leading to them, and so long as there is a market there to supply at remunerative prices, speculators, teamsters and packers at Salt Lake will prefer going thither to coming over to this side of the mountains. It is now a pretty well established fact that no supplies, or at least a very small amount, will be brought in to Boise this season from Salt Lake.—*W. W. Statesman.*

In Every Age of the World, the professions have been slow to admit the value of new discoveries, or the expediency of adopting them in practice. It is not to the legal profession that we look for reforms in jurisprudence, neither do we find the advocates of medical reform among physicians. Each department whatever is found to innovate upon received opinions and established usage. Hence the opposition which medical men have often exhibited to the use of private remedies, whatever their acknowledged value, or great efficacy in the cure of disease. No medicine has ever done more for the relief of human suffering than DR OSGOOD'S INDIA CHOLAGOGUE. The certainty with which it cures Fever and Ague, and eradicates bile from the system is acknowledged by all. Do you prefer a speedy and effectual cure to a regular and scientific run of disease? Try the Cholagogue, and the object is accomplished. Then tell your suffering neighbor what it has done for you, that it may do the same for him. For sale everywhere. COUNCIL MEETING.—The City Council met on Wednesday evening, the president in the chair.

The minutes of the last meeting were read and approved.

A communication from the City Assessor, together with the assessment roll for the present year, were received, and referred to the Committee on Ways and Means.

A number of bills for expenses incurred in repairing the crossing at Front and Taylor streets were ordered to be paid.

On motion, the bills of the Portland Gas-light Company, amounting to $196 50, were ordered to be paid.

Counselor Monastes presented "an ordinance requiring the grading and laying of sidewalks and crosswalks in Jefferson street between First and Park," which was read a first time.

On motion of Counselor Monastes, the City Marshal was directed to store in the City Jail all the street lamps belonging to the city.

On motion of Counselor Lucas, the rules were suspended, and the Committee on Accounts and Current Expenses presented a report relative to the bills of H. L. Pittock, for printing amounting to $255, which were ordered to be paid.

The Committee on Fire and water presented a report on the bills of S. Sherlock & Co., amounting to $29 88 which were ordered to be paid.

Counselor Lucas presented the following resolution:

Resolved, That the Committee on Fire and Water be instructed to examine the house of Engine Co. No. 2, and report as to what repairs are necessary and the estimated cost thereof.

On motion, the resolution was adopted, and the council then adjourned.

DOUBTFUL ECONOMY.—The City Council on Wednesday evening ordered the City Marshal to deposit all the street lamps in the City Jail whether for safe keeping, or to secure the streets from the possibility of being illuminated during dark nights, does not appear, though if the intention is seriously entertained of ceasing entirely to light the streets it would be well for the sensible dignitaries who compose the Council, to make the jail large enough to put the whole city in during the long winter nights, so that it may be protected from the villains and robbers who love darkness rather than light, because their deeds are evil. If economy is the motive, it is a strange that for four months of short nights, it has not operated, and only begins to work just as the contract with the Gas Company is about to expire. We think, however, it will be found to be an expensive sort of economy, for if the company claim compensation, as we suppose it will, till its contract terminates, and recovers it, nothing will be saved while public convenience and security will be disregarded and perhaps seriously sacrificed. It may be the expense seemed too great, but if it was so, we do not believe our citizens will thank the Council for their action. Indeed we believe the general desire is that the number of lights should be increased, because aside from the comfort and pleasure derived from streets well lighted it is well understood that such a condition of the public thorough fares, actually saves to the city an amount in police expenditures, fully equal to the cost of the gas. We hope the good sense of the Council will induce it to rescind the resolution and let well enough alone, at least till a new contract can be made.

FIRE AND WATER.—About half past seven o'clock last evening, considerable excitement was caused throughout the city by an alarm that the City Jail was on fire. We hurried to the scene, with dismal forebodings as to the dreadful fate of the unfortunate prisoners. On arriving at the jail, our visions of roasted humanity were rapidly dissipated by the discovery that the three luckless guests of the county stood in far greater danger of an untimely fate by drowning—for the zealous members of the fire brigade were pouring water into the jail in a manner very feelingly appreciated by the gasping inhabitants. The alarm ended as it commenced—in smoke, whether it came from the lanterns "deposited there for safe keeping," or some other source, we could not precisely ascertain. At any rate, the damage sustained by "fire" was not very serious.

RECORDER'S COURT.—*J. F. McCoy, Recorder.*—Edward Gibson was brought before the Recorder yesterday, charged by Thos. J. Holmes with threatening him (Holmes) with violence and he feared that, unless restrained, the defendant would carry his threats into execution. After the examination of several witnesses, and hearing the arguments on both sides, the Recorder required Gibson to give bonds in the sum of $300 to keep the peace for six months. The bonds were immediately given, and the defendant was released from custody.

SPUNKY.—The Gas Company seems to think "it will never do to give it up so," and though the lanterns were gone last evening the gas was lighted about the streets at the usual hour, and burned as brightly as though the City Council had not tried to "put out that light." We understand the same course will be pursued while the contract continues, unless the posts are removed.

THE STEAMER from the Cascades brought but few passengers and very little gold dust from the upper country last evening.

PRUNES.—We received yesterday from our friend, Mr. W. P. Watson, a basket full of fine large plums, the discussion whereof was unanimously voted to be a most refreshing and pleasing occupation. The present was a most welcome one. An old proverb says that a good tree produces good fruit. This is so. Yet no very good demonstration that to ... it ... the world to produce the fruit in this instance.

ARRIVED.—The bark *Almatia*, Capt. Richardson, arrived on Wednesday night from San Francisco. She was towed up the river by the John H. Couch. The following is a list of her consignees:

Liver Complaint Cured!

CLEVELAND, Ohio, Feb. 10, 1863.

MESSRS. A. L. SCOVILL & CO.—Gents: I have been afflicted with the LIVER COMPLAINT for more than four years, attended, the most of the time, with constipation of the bowels, and at other times with diarrhoea. During the last year I had a constant pain about the liver and shoulder blade, and in my left side, which gave me great uneasiness when I lay upon it.

I took DR. MOTT'S LIVER PILLS according to the directions, for three months, and am now a different man. I have taken them but a short time before I felt great relief. I am able to do as much work as most men. My health is now restored. Yours truly, DAVID PORTER.

Remarkable Cure of Cramps in the Stomach and Bowels.

CINCINNATI, May 31, 1863.

MESSRS. A. L. SCOVILL & CO.: Last Winter I was attacked with cramps in the stomach and bowels, which lasted nearly all the time and the pains were so great that it prostrated me. I tried your BAKER'S PAIN PANACEA in frequent doses, which relieved me at once and I felt its influence to the very extremities of my limbs, and have not been troubled with any similar attack since. I have been traveling during the spring in the country and I came across many who had severe attacks of diarrhoea, and I gave them a few doses of the PAIN PANACEA, which cured them immediately. I also recommended it to a man who had a severe headache and it gave instant relief by bathing thoroughly with it. J. W. ADAMS.

EVERY DEMOCRAT HIS OWN SUPREME COURT.—Governor Seymour very properly attributes the riots in New York to a disregard for law and disrespect for judicial tribunals; but he did not state the additional fact that this disregard for law and contempt for the courts has been the especial characteristic of his party—the Peace Democracy, who denounce every law not passed by a Democratic majority, and care nothing for judicial decisions that do not emanate from Democrats. The *Call* pertinently remarks on this subject:

The leading men of that party have invariably, since the rebellion commenced, arrogated to themselves extraordinary powers. Starting out with a violent prejudice against the Government, and a corresponding sympathy with the rebellion, they have placed every obstacle in the way of a vigorous and successful prosecution of the war. Pretending to great veneration for the Constitution, they have violated that instrument on every occasion, by setting up their judgments as final on all questions of fundamental law. Without appealing to the courts as the proper arbiter, they themselves decided what was and what was not constitutional. Every important step taken by the Government to crush the rebellion was at once met by constitutional objections. The Emancipation Proclamation was unconstitutional; they so decided, and from their decision there could be no appeal. The suspension of the habeas corpus, (no matter where,) ditto; the arrest of men giving aid and comfort to the enemy, ditto, ditto; in fact every prominent act of the Government has been met by the same stereotyped declaration of these self-constituted judges. So with the draft. Notwithstanding there is but one legal mode to test the unconstitutionality of an Act of Congress, the leaders of the Copperhead party preferred to sit in judgment upon it themselves, and every press in their interest—from Cape Cod to Mendocino—fulminated their decision as *ex cathedra*. The New York riot was one of the fearful results of this assumption. By persistently holding up the draft before people of that city as an arbitrary, despotic and unconstitutional violation of State Rights, the unthinking masses came to actually believe that to resist it by force, instead of testing it through the courts, was a proper and meritorious method. Their teachers had led them to believe, by a species of sophistry peculiar to the present epoch and to the Peace Democracy, that to resist forcibly an unconstitutional law was to commit no offence; for how could the resistance of a law which was no law be construed into a violation of law! We are not without such false teachers here, and if ever they succeed in inciting strife in our midst, it will be by the same insidious means.

A JOKER FOR A RULER.—The Washington correspondent of the Cincinnati *Gazette* writes and that paper publishes a singular joke upon President Lincoln. He says the town has had a huge laugh over it. Here it is:

A worthy and very pious minister, it seems, had recently, by means unknown, escaped from the confines of the Confederacy. Though very much disgusted with its temporal, he had high respects for its spiritual condition. Their rulers were praying men, he said; Jeff. Davis himself was an earnest Christian, and was constantly in the habit of seeking the Divine blessing on all his undertakings. "I tell you," he exclaimed, "God always answers sincere and fervent prayer; and it is because Mr. Davis and so many of his people have so humbly bowed before the throne of Divine grace, that he has vouchsafed them so many mercies and so signally prospered their cause."

"But," interrupted the practical preacher, with whom he was conversing, "don't you see that they pray on this side for success just as earnestly as the rebels do. Mr. Lincoln is a man of strong religious convictions, and, doubtless prays constantly to God for success to crown our arms. Don't you believe God will hear him just as quick as he would Mr. Davis?"

"Well, yes, I suppose he would," very simply and sincerely responded the first minister; "only no matter how much Mr. Lincoln prayed, *God would be sure to think he was joking, as usual!*"

HEAVEN AND HOME.—I was reading the other day that on the shores of the Adriatic Sea the wives of fishermen, whose husbands have gone far off upon the deep, are in the habit at even tide of going down to the sea-shore, and singing, as female voices only can, the first stanza of a beautiful hymn; after they have sung it they listen, till they hear borne by the wind across the desert sea the second stanza, sung by their gallant husbands as they are tossed by the gale upon the waves, and both are happy. Perhaps if we would listen we too might hear on this desert world of ours some sound, some whisper borne from afar, to remind us that there is a heaven and a home; and when we sing the hymn upon the shores of earth, perhaps we shall hear its sweet echo breaking in music upon the sands of time, and cheering the hearts of them that are pilgrims and strangers, and look for a city that hath foundations.—*Dr. Cumming.*

"I have always been astonished," said Mrs. Smith, "at the anxiety of young ladies for beaux, but I never pitied a female more than when Miss Mountflather left my school. Seeing her gazing toward the sky, I asked her what she was looking for?"

"'That beau,' said she, 'which is told of in Genesis, as being set in the cloud, I wish he'd come down.'"

HOW LONG, OH, HOW LONG?—A few days ago, a young gentleman called upon a very modest Deputy in the Clerk's office for a marriage license, and in the sincerity of his purpose, inquired, "how long it would hold good." Owing to the delicacy of the subject, the officer was unable to give any guarantee.—*Ex.*

"Mrs. Dobson, how's your husband?" "He's dying, marm, and I don't wish anybody to disturb him."

CLEANSE THE BLOOD AND CURE [illegible]
Invalids, Fathers, Mothers, [illegible] Philanthropists, read their [illegible] and judge of their Vir[illegible]
FOR THE CURE OF
Headache, Sick Headache, Foul [illegible]
DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will cure others as they do me, the fact is worth knowing. Yours with great respect, ED. W. PREBLE, Clerk of [illegible]
Bilious Disorders and Liver C[illegible]
DEPARTMENT OF THE INTERIOR, WASHINGTON, [illegible]
SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D., Physician of the [illegible]
Dysentery, Relax, and W[illegible]
POST OFFICE, HARTLAND, LIV. CO. MICH., [illegible]
DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here. GEO. J. GRIFFIN, [illegible]
Indigestion and Impurity of the [illegible]
From Rev. J. V. Himes, Pastor of Advent [illegible]
DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.
WARSAW, WYOMING CO., N. Y., [illegible]
DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood. JOHN G. MEACHAM, M. D.

From a Forwarding Merchant of St. Louis, [illegible]
DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE.
Rheumatism, Neuralgia, and Gout.
From the Rev. Dr. Hawkes, of the Methodist Episcopal Church.
PULASKI HOUSE, SAVANNAH, GA., [illegible]
HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.
SENATE CHAMBER, BATON ROUGE, LA., [illegible]
DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT SLIDELL.
For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.
For Costiveness or Constipation, and as a Dinner Pill, they are agreeable and effectual.
Fits, Suppression, Paralysis, Inflammation, and even Deafness, and Partial Blindness, have been cured by the alterative action of these Pills.
Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.
AYER'S CHERRY PECTORAL,
FOR THE RAPID CURE OF
COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, INCIPIENT CONSUMPTION,
and for the relief of consumptive patients in advanced stages of the disease.
We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the Cherry Pectoral saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, nor neglect them until no human skill can master the inexorable canker that, fastened on the vitals, eats your life away. All know the dreadful fatality of lung disorders, and as they know too the virtues of this remedy, we need not do more than to assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.
